**Permanent Lifting Magnet**  
**Self Operating**

This type of lifting magnet can automatically lift sheets, plates, blocks and bars without the need of a worker to operate and no power is required. Rotating lift arm activates magnet when lifting steel and releases steel when lowered. Great for remote jobs or where power isn't readily available. Costs much less than Electromagnet.

| Model      | Rated Lifting Strength | Max. pull-off strength | L    | W   | H    | A   | Dead Weight (kg) |
|------------|------------------------|------------------------|------|-----|------|-----|------------------|
| GT-PM-1000 | 1000                   | 3500                   | 595  | 435 | 580  | 190 | 230              |
| GT-PM-2000 | 2000                   | 7000                   | 640  | 580 | 600  | 235 | 320              |
| GT-PM-3000 | 3000                   | 9000                   | 640  | 610 | 650  | 210 | 400              |
| GT-PM-4000 | 5000                   | 12500                  | 1140 | 795 | 1100 | 450 | 720              |
